

The Embassy of the Federal
Republic of Germany in Cairo

and

The Ministry of State for
Environmental Affairs

Have the pleasure to invite you to the 11th Panel Discussion of the
Cairo Climate Talks (CCT)

On January 14th, 2013, 7pm

To review and assess the following topic

„Reducing Emissions in Egypt - CDM Put into Practise“

For its first event in 2013 CCT has the pleasure to present two existing CDM projects from Egypt: one from the industrial sector (Cement Industry) and one from the informal sector (Charcoal Kiln).

We look forward to hearing about the implementation, challenges, accomplishments and various benefits from these projects by those who carried them out. We will discuss how these projects reduce carbon emissions, help improving air quality and promote sustainable development in Egypt and how they can serve as an example for others.

We have the honour to welcome the following keynote speakers from Germany and Egypt, who will guide us through our discussion with their expert knowledge and valuable insight in the topic.

Eng. Mona El Aguizy

Programme Manager –
Climate Change Risk Management (CCRMP)
Ministry of State for Environmental Affairs

Ahmed Medhat

Operational Manager
CDM Awareness and Promotion Unit (CDM- APU)
Ministry of State for Environmental Affairs

Nader S.M.Hussien
